

Byron Clinic presents

Dr Bessel van der Kolk

2012 Frontiers of Trauma Tour

Sydney

19 - 20 March

Brisbane

22 - 23 March

Melbourne

28 - 29 March

Dr Bessel van der Kolk is a world renowned authority in the treatment of trauma. He is a passionate researcher and clinician and he will bring to these workshops the very latest research findings and crucial developments in the treatment process.

Dr van der Kolk will explore innovative trends in current research that will ultimately contribute to a new understanding and treatment. He is an engaging and inspiring international presenter. Positions at these two day workshops are limited, early booking is recommended
